cytochrome−c oxidase activity
transcription factor binding transcription factor activity
sequence−specific DNA binding transcription factor activity
oxidoreductase activity
transferase activity
hydrolase activity
lyase activity
Ras guanyl−nucleotide exchange factor activity
structural constituent of cytoskeleton
transmembrane transporter activity
neurotransmitter transporter activity
substrate−specific transporter activity
drug transporter activity
protein binding
chromatin binding
carbohydrate binding
lipid binding
drug binding
oxygen binding
toxic substance binding
extracellular matrix binding
amide binding
small molecule binding
neurotransmitter binding
hormone binding
ion binding
amine binding
macromolecular complex binding
cofactor binding
quaternary ammonium group binding
